

## OVERHANGING TREES

Clear Lake City Ordinance 7-5-7 states that no person shall permit their tree branches to become a hazard or nuisance to either garbage disposal equipment or street maintenance equipment. In addition, property owners are responsible to keep all trees and overhanging branches trimmed to a clearance of ten (10) feet over sidewalks. City residents are being asked to check the overhanging trees and branches on their property and timely trim them, if necessary, in order to comply with this ordinance.
